

# Personal Series LCD Clock

Bluetooth® Wireless Technology

Add the convenience of digital synchronized time to patient rooms, offices, and other personal spaces in your facility. Our Personal Series clocks use Bluetooth Low Energy to remain synchronized throughout your facility. You can configure clock display settings and monitor for unforeseen problems through our OneVue software platform.

The Personal Series LCD clock offers both the accuracy of synchronized time along with the convenience and contemporary styling desired for personal space. With the ability to mount securely to the wall or stand on a desktop, the Personal Series clock offers great deployment flexibility.

Personal Series LCD Clock

- Clocks 'wake up' once daily
- Clocks synchronize time via the Bridge
- Clocks form network based on strongest signal to another clock or a Bridge
- If one clock fails, other clocks will 'find their way home' to the strongest signal
- Bridge reports clock status to OneVue
- OneVue accessible via PC or mobile device
