TIME SYNCHRONIZATION | SOLUTIONS
By leveraging Amazon Web Services and Bluetooth® wireless technology, OneVue™ lets you seamlessly add as many clocks as you need – across your entire facility.

**How does it work?**

- Smart-Sync™ bridge acquires NTP time signal
- Clocks find strongest connection back to bridge to form Bluetooth low energy network
- Bridge passes time signal across network and clocks automatically synchronize

**What products are compatible?**

Primex makes a wide variety of Bluetooth clocks that leverage its OneVue™ platform. To ensure compatibility, look for the OneVue™ icon.

**BOOST EFFICIENCY. SAVE MONEY. GET IN SYNC.**

Dependable Primex **ANALOG CLOCKS** come in a variety of colors, sizes and dial options to fit any style or budget.
Bright LEDs and sleek designs make Primex DIGITAL CLOCKS & TIMERS as attractive as they are functional.

XR Series

Broadcast transmitter GPS solution

The perfect combination of distance and signal strength to easily transmit through common building materials, across longer distances, and with less potential for signal interference.

How does it work?

- GPS receiver obtains time from satellite
- 72 MHz transmitter broadcasts time signal to every clock across your facility
- Clocks receive signal and automatically synchronize to correct time

What products are compatible?

Primex makes a wide variety of clocks that leverage its 72 MHz technology. To ensure compatibility, look for this 72 MHz icon.
Primex is a leading provider of wireless time synchronization technologies – serving more than 16,000 locations worldwide.

**WHY PRIMEX?**

- Cross resetting clocks off your to-do list
- Automatically corrects for Daylight Saving Time
- Choice of deployment platforms

- Multiple power options for flexibility
- A variety of styles and options
- Proactive status reports

**HOW TO BUY**

*With partners across the world, help is just around the corner.*

Primex synchronized clock systems are available through our certified partner network. For help in locating a certified partner in your area, please give us a call Monday-Friday from 8am-5pm CT at (855) 598-9494, or visit us online at primexinc.com.
